

PER AND ODD'S SCORE-O

Bicentennial Park September 22, 2001

Maximum points available 1000. Long course 1 hour 30 minutes, short course 1 hour.

Three runners scored a perfect 1000 on the long course in the last daylight Arctic Orienteering Club event of the year. Urban Enkvist, the top individual, and Dan Ellsworth and Jackie Rosser, the top team found all twenty-five controls spread throughout the mostly open woods north of Basher Rd and west of the tank trail. In the one hour event, the team of Jorge Andrade and Brian Durrell had the high score for the day with 360 points while David Evans was the top individual with 270 points.

Orienteering conditions were near perfect with reduced vegetation resplendent in fall colors and cloudy, mid-50s weather. Many good remarks were heard from the participants.

Many thanks are due to the organizers, Odd Fuglestad and Per Pedersen for setting this score-O *twice* (the first one at Ft. Richardson where increased security prevented us from using it). Also thanks to Dan Ellsworth for mapping help, Steve Gruhn, Jim Green and Dan Billman for picking up controls, Eric Follett for permit help and Dick Hawkins for picking up the controls we didn't get to use on Ft. Rich.
