

Orienteering results from Wed. 5-28-03.

We had a large turnout on a beautiful sunny day. We had three courses: a standard white course for beginners, and short and long Treasure-O courses. The Treasure-O was a score-O format, with participants adding extra points when finding a list of nature treasures while running the course. The short course was 1 hour in length and the long course was 1 hour and 15 minutes. Participants were docked points if they came in late (5 points for each minute). There were no ties in the Treasure-O even though some participants had the same point level (best time won in case of a tie on points).
