

# Search & Destroy "Pick up" Orienteering

## Sep 17 2004 Russian Jack Springs Park

In this fun season-finishing event, participants had 45 minutes to earn points for finding controls as well as additional points for taking down one strategically chosen control and bringing it to the finish. Some people also got points for being the first person back in or finding typographical errors in the instruction sheet. Following the outdoor event were a potluck, awards and the annual meeting and election of officers for the next season.
