

## **Trond's Orienteering Relay 6/7/06 at Hilltop**

The relay was run with 2 person teams and there was a long and short course option. Four courses (A,B,C,D) were set up, each one 1.5km in length with 4 controls. For teams competing on the long course, each team member ran all four courses for a total of 8 legs. For the short course option each team member ran 2 courses for a total of 4 legs. All legs were combined for a total time. All relay competitors started in a mass start. Teams were randomly assigned their initial course so nobody knew which course their fellow runner was on. In addition there was a standard White course.
