

Dan and Anne's Score-O
6/21/2006
Service High School

All participants were challenged by the Score-O format. Some participants were thwarted by dense vegetation; others gave up their hard-won points by arriving late at the finish line. Bill Spencer captured the most points by finding 16 controls, averaging 50 points each.

Thanks to Trond Jensen for vetting the course, Irene Jordet for helping with registration, Eric Follett for help with scoring and control collection, and Dylan Watts and Bill Spencer for picking up controls.
