

Trond and Toby's Ski Orienteering Event

Wednesday, March 17, 2010, at Hillside Skitrails

Clear blue skies and spring like temperatures made for ideal conditions in this year's ski orienteering, the first orienteering event of the year. Twenty five members of the Anchorage ski and orienteering community took on the challenge of finding within one hour as many as possible of the 30 controls set out along Hillside ski trails. Controls had different point values depending upon distance from the start and the difficulty of navigation required to find them.

Thanks to Trond Flagstad and Toby Schwoerer for putting on the event and Ian Moore for assisting in map design.
